 github.com/Rupashreethulasiraman

Summary

Full Stack Developer with a strong foundation in HTML, CSS, JavaScript, and React.js. Skilled in creating responsive, user-friendly web interfaces and currently learning backend technologies. Passionate about developing practical, scalable web applications and contributing to innovative projects.

Skills

Languages: C++, Python, Java (Basics), JavaScript, SQL

Frontend Technologies: React.js, HTML, CSS

Backend Technologies: FastAPI

Tools: Git, GitHub, VS Code, Figma, Firebase, VScode

Soft Skills: Communication, Time Management, Teamwork

Experience

IOT Intern

June 2025 - July 2025

TS Robotics

- Worked on both Hardware and Software components of IOT systems, contributing to the design and testing of sensor-based automation projects.
- Assisted in developing and integrating IOT prototypes using microcontrollers(Arduino, NodeMCU) and real-time data monitoring platforms.
- Collaborated with the startup core team in building and maintaining the company websites, enhancing user interface and functionality.

Full Stack Developer Intern

November 2025 – March 2026

IRAIRF

- Developed responsive and user-friendly web applications using HTML, CSS, JavaScript and React.
- Built and integrated backend services using modern technologies to handle data processing and APIs.
- Integrated Firebase for authentication and real-time database management in web applications

Projects

Novaport-AI (An Intelligent Trade Compliance Platform) | *FastAPI, React, Python, Vercel*

<https://novaport-ai.vercel.app/>

- Built an AI powered full-stack platform using Google Gemini API and NLP for automated HS Code classification and regulatory compliance
- Developed a backend using Python and FastAPI to handle document uploads, extract key data, and perform real-time AI analysis
- Integrated the frontend and the backend via REST API's and improved the platform's overall speed by 40%
- Improved AI prompts and added strict validation rules to ensure accurate and reliable outputs

E-Kalavya (An online Education Platform) | *Next.js, Firebase, Tailwind CSS, Vercel*

github.com/Rupashreethulasiraman/E-kalavya

- Created and developed an online EdTech platform for enrolling in and finding courses.
- Wallet-based payments, Firebase authentication, and Firestore backend integration.
- implemented a production-ready, fully responsive application on Vercel.

Certifications

- **C++ Programming – Code with Mosh:** Completed a structured course covering object-oriented programming concepts, data structures, and hands-on coding exercises to strengthen core C++ development skills.
- **Database Management Systems – NPTEL:** Completed a certified course covering SQL queries, relational models, and normalization concepts with a final score of **60%**.
- **Machine Learning – NPTEL:** Completed an advanced course on supervised and unsupervised learning algorithms with a final score of **70%**.

Education

B.Tech Computer Science and Engineering

2023–2027

SRM University, Ramapuram

CGPA: 9.3 / 10
